

OLEKSANDR MALAHAN

FULL-STACK SOFTWARE ENGINEER / WEB ENGINEER
DIPLOMA IN MATHEMATICS AND COMPUTER SCIENCE (ZAB)

PERSONAL

Ratingen, Germany

linkedin.com/in/oleksandr-malahan

github.com/alexmlh

STATUS
ZAB-recognised • available immediately

LANGUAGES

German: B2, certified

English: B2, fluent

Ukrainian / Russian: native

Spanish: B1

KEY SUBJECTS

Advanced mathematics and mathematical modelling

Computer science, discrete structures and algorithms

PROFESSIONAL PROFILE

Results-driven **Full-Stack Software Engineer** with a **Diploma in Mathematics and Computer Science**, recognised by the German Central Office for Foreign Education (ZAB) as a German higher education qualification at a level between bachelor's and master's. Combines strong mathematical and algorithmic problem-solving skills with commercial experience building web applications for high-traffic German e-commerce platforms, including **expert.de**. Specialises in typed frontend and service architectures using **TypeScript, Vue.js, Nuxt and Node.js**, robust RESTful APIs and modern AI-assisted development practices (Claude Code, GitHub Copilot).

PROFESSIONAL EXPERIENCE

Full-Stack Software Developer **03/2026 – 07/2026**
Braintags GmbH • Willich, Germany • Platform: **expert.de**

- **E-commerce platform development (expert.de):** Enhanced and maintained core components of a leading German electronics retail platform using **Vue.js, Nuxt and TypeScript**.
- **Feature development:** Designed and implemented business-critical full-stack features, including **expert.de/gasttrainer-rudi**, with a focus on performance, usability and responsive design.
- **Backend and REST APIs:** Integrated modular RESTful microservices, developed server-side endpoints in **Node.js** and structured data storage with **MongoDB**.
- **AI product development (hypava.com):** Contributed to the architecture and frontend integration of AI-powered product components in an agile workflow.
- **Quality and tooling:** Used modern development and refactoring tools (Claude Code, GitHub Copilot, Git, Bitbucket, Jira) to improve code quality and delivery speed.

Mathematics and Computer Science Teacher **2004 – 2019**
Secondary education • Berdyansk, Ukraine

- **Algorithms and logic:** Taught algorithmic thinking, data structures, discrete mathematics and structured programming fundamentals.
- **Structured teaching:** Designed practical learning materials and teaching methods to explain complex mathematical models and systems clearly.
- **Mentoring:** Guided students in computer science projects and prepared them for subject olympiads.

TECHNICAL SKILLS

Frontend

TypeScript, JavaScript, Vue 3, Nuxt 3, React, HTML5, CSS3, Tailwind CSS, daisyUI, Vite, SSR

Backend and APIs

Node.js, Express.js, RESTful APIs, MongoDB, Appwrite, JWT, session management

Tools and practices

Git, GitHub, Bitbucket, Postman, npm, Docker (fundamentals), CI/CD, Scrum, Kanban, Jira

AI-assisted development

Claude Code, GitHub Copilot, prompt engineering, tool calling, API integrations, automated test generation

Methods

Algorithm optimisation, data modelling, discrete mathematics, clean code, code reviews

AVAILABILITY

LOCATION
Ratingen, Germany

WORK LOCATION
Düsseldorf and surrounding area

WORK MODEL
Home office, hybrid, or on-site

EMPLOYMENT TYPE
Full-time or part-time

SELECTED DEVELOPMENT PROJECTS

MERN Real-Time Chat Application [GitHub Repository] • [Live Demo]

Technologies: Node.js, Express, Socket.IO, MongoDB, React, Axios, JWT

- Built a responsive messaging platform with bidirectional real-time communication (WebSockets), secure sessions, token-based authentication and modern UI state management.

Full-Stack E-commerce Application (MERN) [GitHub Repository] • [Live Demo]

Technologies: React.js, Node.js, Express, MongoDB, REST API, Tailwind CSS, daisyUI

- Designed and built a full-featured online store with product catalogues, a dynamic shopping cart, administrative management and a persistent REST backend.

React Movie Search and Discovery Platform [GitHub Repository] • [Live Demo]

Technologies: React.js, Appwrite (BaaS), Tailwind CSS, REST APIs

- Built a responsive single-page application with asynchronous API data retrieval, search and filtering, usage metrics and backend-as-a-service integration.

EDUCATION AND RECOGNITION

Diploma in Mathematics and Computer Science **1999 – 2004**

Berdyansk State Pedagogical University • Final grade: 1.3 (German scale: very good)

- **Official ZAB recognition (Bonn):** The assessment confirms a German higher education qualification at a level between bachelor's and master's, qualifying the holder for non-regulated academic professions in Germany.

PROFESSIONAL DEVELOPMENT AND CERTIFICATES

2026:	**Mastering Vue and Nuxt: Full Stack Unleashed** • Braintags GmbH / **masteringnuxt.com**
2023 – 2024:	**The Modern JavaScript & TypeScript Tutorial** (advanced ES6+, asynchronous patterns, DOM and Node.js)
2021 – 2022:	**The Complete Web Developer: Zero to Mastery** (full-stack fundamentals, React, APIs, Node.js)
